CASES AND CASES

THE PROFESSIONAL LIFE
OF THE HOMEOPATH

The days will unfold at the pace of cases, just as in a normal clinical practice in one's office: for each case we need to understand what really needs to be fixed in the patient, what to pay attention to, what symptoms are relevant to the patient.

Fundamental then is to become experienced in 'organizing the analysis, according to obvious principles. The seminar will also be an opportunity to delve into the materia Medica of known and less usual remedies.
